DETAILED ACTION

Response to Amendment

1. Amendment filed August 10, 2005 is acknowledged.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

3. Claims 1, 3, 9, 23 are rejected under 35 U.S.C. 102(b) as being anticipated by over Harkenrider et al. (2,943,378).

Harkenrider discloses an emanator comprising a first material 26 and second material 28.

Claim Rejections - 35 USC § 103

4. Claims 4-6 and 11-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Harkenrider et al. (2,943,378) in view of Denen et al. (6,296,196).

Harkenrider discloses an emanator comprising a first material 26 and second material 28. Harkenrider does not disclose nylon and polypropylene. Denen discloses nylon and polypropylene in column 6, line 16. It would have been obvious to a person having ordinary skill in the art at the time of the invention to have used nylon and polypropylene in the device of Harkenrider as taught by Denen for "good capillary action" (Denen, column 6, line 9).

Response to Arguments

5. Applicant's arguments filed August 10, 2005 have been fully considered but they are not persuasive.

Applicant argues that Harkenrider does not disclose "the benefit wherein the capillary action of the first and second material in combination results in a greater overall transfer rate than either of the first or second materials alone." In Harkenrider, each of the first material 26 and second material 28 inherently has a transfer rate. The sum of the parts is always greater than the individual parts. The transfer rate of two materials is always greater than the transfer rate of each of the materials alone.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
